ASTER

HOME ELEVATORS

ELEVATING THE ART OF LIVING

Where timeless elegance meets intelligent mobility.

PREMIUM DESIGN | ADVANCED SAFETY | MODERN AESTHETICS | RELIABLE PERFORMANCE

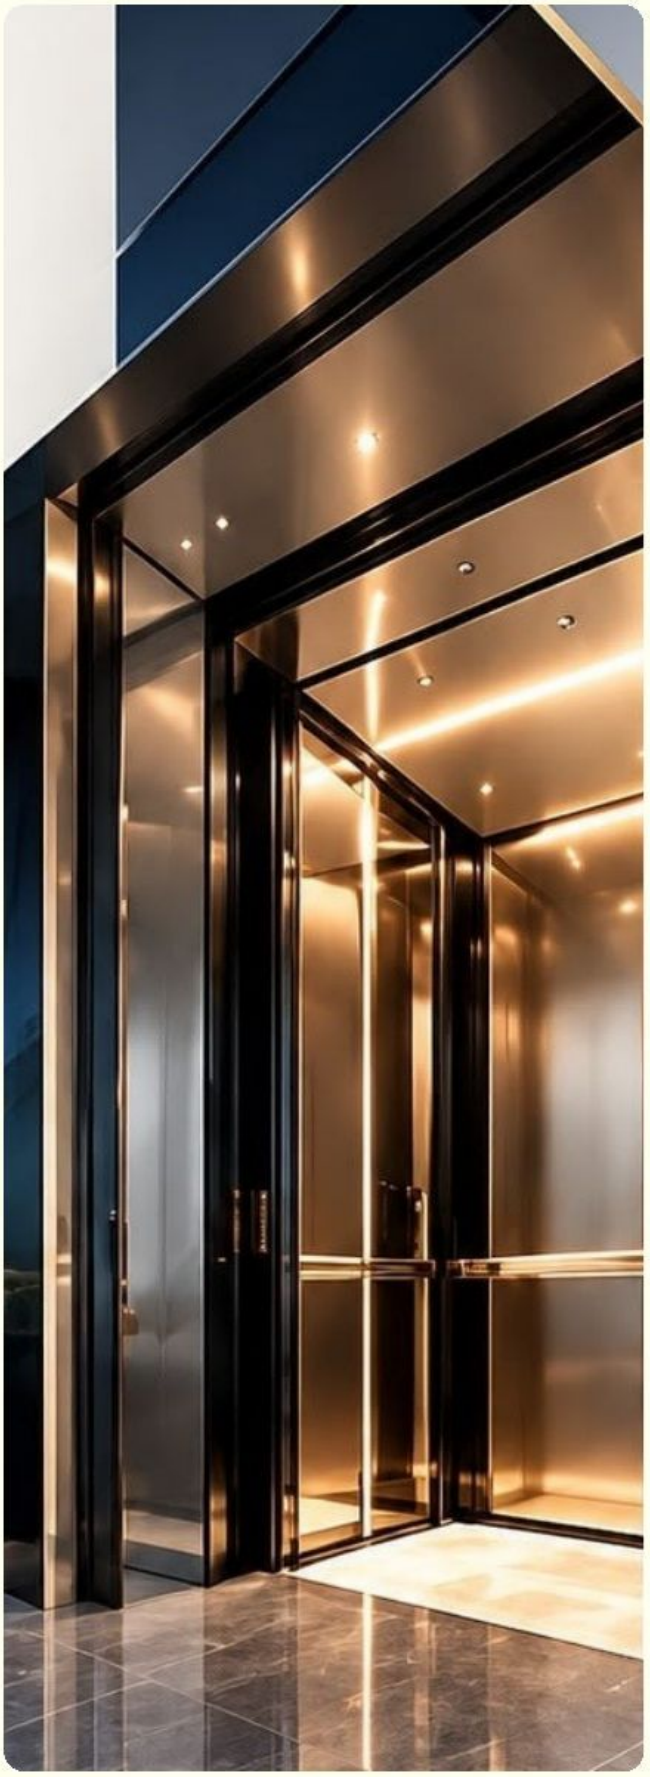

A NEW PERSPECTIVE ON VERTICAL LIVING

More Than an elevator.

An Expression of Your Lifestyle.

At ASTER, we believe every element of your home should reflect your aspirations. An elevator is no longer simply a means of moving between floors; it is an architectural feature that brings elegance, convenience, and sophistication into everyday life.

Our home elevator solutions are thoughtfully designed to complement modern living, creating a seamless connection between spaces while enhancing the character of your home.

THE ASTER PHILOSOPHY

Inspired by Design. Defined by Precision.

ASTERHome Elevators brings together contemporary aesthetics,thoughtful engineering and a Commitment to creating exceptional residential mobility experiences.

We understand that every home is unique. From compact private residences to expansive luxury villas, we offer personalized solutions that integrate naturally with the surrounding architecture.

With attention to material selection, design detailing, operational comfort, and long-term performance, ASTER strives to create elevators that are as beautiful as they are functional.

OUR VISION

To redefine residential mobility through elegant design, dependable technology and thoughtful innovation.

OUR MISSION

To deliver customized home elevator solutions that combine safety, comfort, aesthetic excellence, and customer-focused service.

ASTER IS A EUROPEAN BRAND

THE DIFFERENCE IS IN EVERY DETAIL

Why Choose ASTER

Ten reasons to experience ASTER.

01 **Safety by Design**
Thoughtfully integrated safety features for confident everyday mobility.

02 **Bespoke Elegance**
Personalized finishes that reflect the character of your home.

03 **Seamless Integration**
Elevator solutions planned around your architectural space.

04 **Refined Ride Comfort**
Smooth movement and controlled stopping for a pleasant journey.

05 **Enduring Quality**
Carefully selected materials and dependable engineering.

06 **Energy-Conscious Design**
Efficient technologies suited to modern residential living.

07 **Precision Installation**
Careful planning, professional execution and attention to detail.

08 **Customer Assistance 24/7**
Support and technical guidance throughout the ownership journey.

09 **Maintenance & Care**
Planned servicing to support reliable long-term operation.

10 **Personalized Experience**
A customer-focused approach from consultation to handover.

DISCOVER THE ASTER COLLECTION

Distinctive Solutions for Extraordinary Homes

Every residence has its own architectural identity. The ASTER collection brings together versatile elevators

Technologies and refined design possibilities allow you to select a solution that aligns with your space, lifestyle, and personal preferences.

Whether your priority is compact installation, smooth mobility, or an elegant statement piece, our solutions bring convenience and visual harmony into your home.

MRL (MACHINE-ROOM-LESS) HOME ELEVATORS

THE ASTER RANGE

ENGINEERED INTELLIGENCE

Advanced Technology

Intelligent elevator performance with precision control, smooth movement and energy efficiency.

01 SAFETY

- Dual safety braking
- Overspeed protection
- Fire-resistant cabin
- Seismic sensors

02 SMART TECHNOLOGY

- RFID card access
- Biometric access
- Remote monitoring
- Load balancing

03 INTELLIGENT CONTROLS

- Precision leveling
- Floor restriction
- Error notifications
- Emergency evacuation

04 SMOOTH PERFORMANCE

- Gearless drive
- Magnetic drive control
- Anti-vibration system
- Gentle start & stop

05 MONITORING & MAINTENANCE

- Proactive maintenance alerts
- 24/7 live monitoring
- Lifetime log
- Diagnostic system

06 COMFORT & CUSTOMIZATION

- Silent rails
- Custom interiors
- Tailor-made sizes
- Emergency intercom

UNIFIED TECHNOLOGY

Integrated Controller

- Microprocessor-based VVVF technology
- Smooth & accurate ride
- Low power consumption
- Reliable performance

Magnetic Controls & Advanced Landing

- Precision floor leveling
- Silent & vibration-free operation
- Enhanced passenger comfort
- Long-lasting durability

DESIGNED TO ELEVATE. BUILT TO LAST.

Cabin Construction

Premium 304 Stainless Steel

- **Premium SS304 stainless**
- **steel Corrosion resistant**
- **Hygienic & easy to maintain**
- **Fingerprint-resistant finish**
- **Elegant, premium**
- **appearance Long service life**

FINISH OPTIONS

DARK GREY | WOOD FINISH | STONE GREY | SHAFT GREY

Cabin Finishes

TheASTERcabin finish package is crafted for lasting beauty, blending natural, sustainable materials with contemporary accents to create a warm, inviting atmosphere. Carefully executed details elevate comfort and style, turning the cabin into a refined, timeless sanctuary.

Cabin Panels

Fully customizable panels in stainless steel, glass and wood veneers: durable, sound-dampening, and easy to maintain, with integrated controls and energy-efficient LED lighting. Built to stringent safety and fire-resistance standards for new installations and modernization.

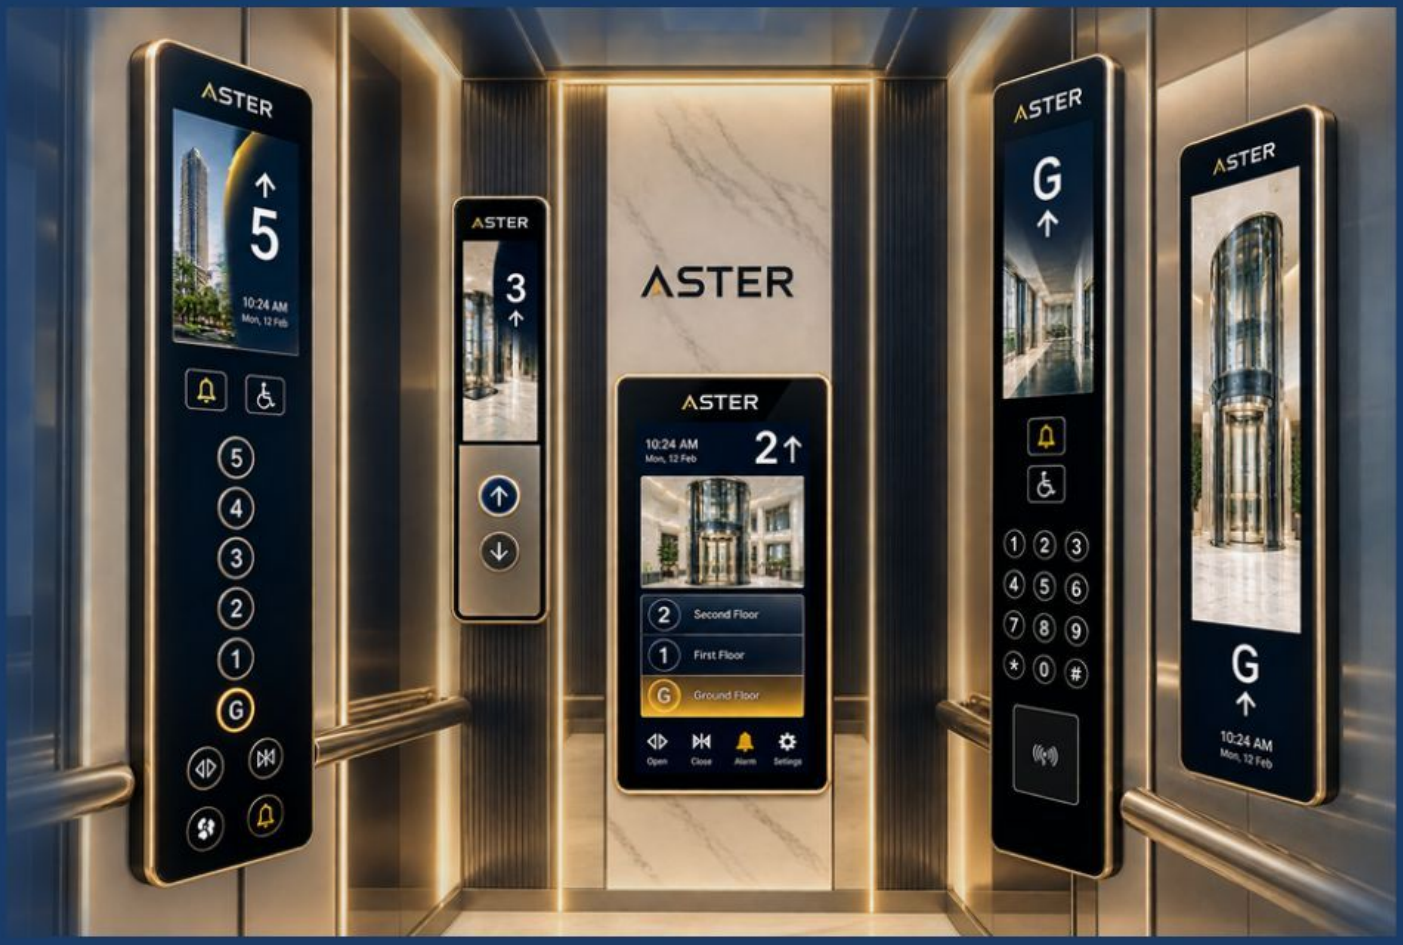

CONTROL WITH CHARACTER

Sleek Cabin Panels

BUTTON | TOUCH SCREEN | KEYPAD | CARD ACCESS

POWERING EVERY RIDE WITH PRECISION

Motor & Drive System

- Gearless PMSM motor: ultra-quiet, energy-efficient performance.
- VVVF drive technology: smooth starts, precise leveling, and vibration-free travel.
- Low maintenance with long-lasting, reliable operation.
- Compact, high-efficiency design ideal for residential elevators.

TECHNICAL SPECIFICATIONS	
Motor Weight	80 kg
Maximum Capacity	408 kg
Roping System	2:1
Speed	Up to 1.0 m/s
Voltage	380 V
Motor Power	3.8 kW

PREMIUM EUROPEAN COMPONENTS

Montanari — ITALY
High-efficiency gearless traction machines

Ziehl-Abegg — GERMANY
Advanced VVVF drive technology

GERMAN POLYURETHANE TECHNOLOGY

ASTER Cog Belt

- **Premium polyurethane construction**
- **High abrasion & tear resistance**
- **Superior chemical resistance**
- **Low noise & smooth operation**
- **Longer service life than PVC / rubber belts**

STRENGTH YOU CAN SEE THROUGH

Glass,Shaft & Guide Rails

01 GLASS SPECIFICATION

GLASS USED

8 – 12 mm sandwich toughened glass

ADVANTAGES

- High structural strength
- Vibration-resistant
- Safe laminated construction
- Ideal for panoramic elevators

02 SHAFT STRUCTURE

STRUCTURAL STEEL PIPES

100 × 100 × 4 mm (main shaft supports)
80 × 40 × 4 mm (cross bracing & structural members)

ADVANTAGES

- High load capacity Rust-
- protected for long service life
- Ensures precise alignment
- Smooth and stable installation

03 BEST-IN-CLASS GUIDE RAILS

MATERIAL

Cold-drawn, precision-machined T-section steel Grade 45C / EN8 or equivalent

STANDARD

Conforms to ISO 7465

ADVANTAGES

- High tensile strength
- Ultra-straight, precision-machined surfaces
- Reduced vibrations & smoother cabin travel

BUILT-IN INTELLIGENCE

Advanced Features

01

Advanced Door Control System

ASTER doors are driven by a closed-loop variable-frequency motor system, so they open and close smoothly, quietly, and with consistent stability. Anti-squeeze protection keeps every passenger safe, door after door.

02

Grease-Less Rails

Self-lubricating guide rails remove the need for traditional lubricants. With no grease to attract dust or stain the shaft, friction and wear stay low, keeping the ride smooth, efficient, and long-lasting with minimal maintenance.

03

Enhanced Fault Detection & Reporting

The ASTER Error Notification System flags faults early and reports them for remote diagnosis. Battery-operated emergency lowering brings the cabin safely to a landing, and the GSM telephone keeps you connected, so no one is ever left stranded.

DESIGNED YOUR WAY
